To Whom It May Concern,

I am pleased to write this letter of recommendation for Luciano Ramirez as he pursues a position in Creative Content & Digital Media. I have had the privilege of working with Luciano for the past year in my role as Munich City Coordinator for Refugee Oasis (RO), and I can confidently say that he is an exceptionally creative, motivated, and collaborative colleague.

Throughout our time working together, Luciano consistently demonstrated a strong ability to generate innovative ideas while also understanding how to develop those ideas into practical and engaging outcomes. We work together to meet and encourage refugees and immigrants to attend free language classes that will help them to integrate into German society. In order to do this, Luciano and I recently were “boots on the ground”, visiting various refugee camps to share information about the classes and encourage the refugees to join in. Luciano is fearless in approaching others and sharing pertinent details about the classes. He has a way of presenting information that is very welcoming to newcomers.

In addition, without being prompted, Luciano independently identified that our target group could also be reached through online communities — and he acted on it. He created and grew a Meetup group to advertise the language classes, which has since reached 90 members, with every event he organized filling to capacity. This initiative alone reflects his ability to recognize opportunity, take ownership, and deliver measurable results. As a result, we have seen a large increase in the number of students.

I am so grateful for Luciano’s creativity and motivation to continue to grow our efforts in the Munich area. I am confident that Luciano would be a tremendous asset to any organization seeking someone with vision, initiative, and strong creative content and digital media skills. I highly recommend him without reservation.

Please feel free to contact me if you would like any additional information.

Sincerely,

Patty Swigart (former PMP & CSM)
